General points on spelling

UK spelling, hence '-ise' not '-ize' where there is a choice, e.g. standardise not standardize. it's, being a contraction of "it is"; its eg: its shape (being possessive).

Place and other names:

See previous Journals, and Journal indices. Note: all the indices (four of them) are available electronically on the MCSA website: http://www.mcsa.org.za/home/journal-indices

Note in particular:

Cederberg (Cape - not Cedarberg - journal policy since 1984); but Cedarberg Kloof (Magaliesberg, Gauteng).

Toverkop (not Towerkop).

Bain's Kloof (Afrikaans: Bainskloof).

Lion's Head.

Maclear's Beacon.

Giant's Castle.

Tonquani Kloof (note capital for Kloof).

Hex River Mountains (Afrikaans: Hexrivierberge).

Frans' Kraal (*English*); Franskraal (*Afrikaans*).

Du Toit's Kloof; Du Toit's Kloof Peak (Afrikaans: Du Toitskloof; (Du Toitskloof-piek (Vlgs

Pleknaamkommissier: Dutoitskloof).

the Berg (use only for the Drakensberg – without apostrophe - not 'Berg.

Fitz Roy (Patagonia) not Fitzroy.

The United States (or US) – not United States of America (USA).

Rwenzoris - not Ruwenzoris (adopted by Rwenzori Commission in 1996).

Boer War: w.e.f Nov 2014 changed to "The South African War" (confirmed Dept of Social History,

University of Witwatersrand).

Khoe (formerly Khoi).

Also capitals: Redi Pass. Annapurna Range; Nahanni River/Gorge/Glacier; Mashai Fang Ridge; the Mallory Route; the Direct Frontal Route. Everest North Face (but: on the north face of Everest/X; Table Mountain Hut (Afrikaans: Thomas hut; Tafelberg hut); the Standard Route; a Friend (not a foe: use Capital F); at Base Camp/walking from High Camp (but: Therefore the base camp was ... and a high camp on the col); on Day One (not: on day one not: on day One)

Fullstops or not:

MCSA (not M.C.S.A.), US (not U.S.A), UIAA: no full stops

Mr, Dr, but Hon. Secretary, Prof. X (full stop if abbreviation does not end with same letter as full word). Mt (as abbreviation of Mount, no full stop)

Dr R Marloth - no fullstops Dr KHE von Delft (NOT Von with a capital; no spaces or fullstops between initials)

Afrikaans: titles in text are in small letters, except at the start of a sentence. Geen punte. Eg/bv: Dr Marlot het due ... maar dr Du Toit en dr Watmough ... en Jan du Toit het . . .

No full stops with metric abbreviations km, kg, m

<u>However:</u> full stops in e.g. and i.e. (clearer than eg and ie) if these cannot be avoided. No full stops in times, am and pm

Quotes: single quotes normally.

For quotes within quotes use double within single.

Smart quotes (curly) ' 'rather than straight quotes ".

Large quotations: inset without inverted commas, in italics where appropriate.

Numbers:

One to nine in words, thereafter numerals, but be consistent in pairings, e.g. 'one to ten' but '10 to 20'. At the beginning of a sentence use a word not numerals. No commas in big numbers 10 000 (not 10,000).

500 BC (Afrikaans: 500 vC) 500 AD (Afrikaans: 500 AD) = same Latin *Anno Domini*

Ensure that numerals over a thousand have a fixed space dividing the thousands from the hundreds by using Ctrl-Shift-Spacebar in MS Word.

Check ends of lines at proof-reading stage to ensure that this has carried across into page layout.

Use decimal point (full stop not comma)

th: eleventh or 11th (not superscript th)

Map scale: 1:50 000

Heights/Altitudes:

Use space between thousands and hundreeds for all numbers including heights:

4 985 m with a space between the number and the symbol.

Distances:

Word in full or symbol depending on context, but preferably word in full, e.g. five kilometres (Note: metre not meter) (Afrikaans: kilometer). When number is higher than 10, the abbreviation kms can be used, e.g. 25 kms.

Dates:

Wednesday 15 January 2003 (no commas). 1990 to 1999 or 1990 – 1999 depending on context; 1996 (not '96). 1990s (or '90s if that suits the tone of the article) (Note: no apostrophe before s) 2 - 5 May 1999 (note spaces both sides of hyphen)

12th Century (no space between 12 and th; capital C for Century).

Times:

Use am and pm no full points for all times is preferred.

Should be consistent throughout the publication and is editorial call, not author's.

Twenty-four hour clock: 13:00 - no pm.

08h00 am

Temperatures:

20°C (without a space between symbol and C).

Check carefully at proof-reading stage that same size symbol has been inserted throughout.

Directions:

Capitals: South (proper noun), SW (proper noun), but lower case: south-east (common noun), south-eastern (adjective), south-easter (noun), south (common noun)

Other issues:

For emphasis within article, use bold.

Use italics for *publication names*, *foreign words* and *scientific names* within ordinary text.

If text is in italics then the reverse applies.

Certain (originally) foreign words don't need italics – see list at the end of this style sheet.

Foreign language: use italics (inter alia; téléphérique)

Not in italics: étrier bergschrund pampas Rio (not Rio)

wanderlust couloir arête ad hoc en route veld nek krantzes

diedre

In Afrikaans articles: usage of English qualifies as foreign language - use italics! In Afrikaans beware of MS Word placing incorrect apostrophe for 'n. Must be ' not '.

Botanical Names:

Use italics: Aloe peglerae (not Aloe Peglerae)

Scientific names have capital for genus and lower case for species, e.g. *P nitida*, *Disa uniflora* (but 'a protea', 'a red disa').

Published books in text: Italics: Reading Annapurna every night.

Names of magazines and newsletters in text: Italics: Reading National Geographic every night.

Names of individuals: van -vs- Van, e.g. Piet van Zyl, P van Zyl, Van Zyl

Single space (not two spaces) after full stop between sentences.
